JOHN W. CRESSY, Tseasurer.

REPORT OF SCHOOL BOARD. TOWN DISTRICT.

Our schools have been well attended and most of the scholars have shown much improvement. As a rule they have been interested in their school work and this was like half the lesson already learned.

To encourage this interest which the children take in their school is the solemn duty of every parent.

Let our boys and girls be taught in the homes as well as in the school-rooms not from books alone, but taught by precept and example that character building is the all-important work of their young lives. Lessons along this line the youngest children learn, for no child can help imitating what he sees. One good father and one good mother are worth a dozen school-masters.

Below is a statistical report of our schools for the year ending, February 15, 1900.

The number of scholars in town was 148.

The number of children between the ages of 5 and 15 reported by the Truant Officers was 79 boys and 69 girls.

Report of Special School District.

The duties of a School Board are many and varied, and seldom accomplish the good they wished or hoped for, when they entered upon their duties. The work in some of its phases is delightful, but has numerous details, which at times make it very unpleasant.

The Grammar department has prospered under two efficient teachers, Miss Laura May Blood of New Boston, the spring and summer terms. She was fresh from Normal School and brought up to date ideas. One special secret of her success was tact in gaining the love and good will of her pupils. Discipline was extra, and acquired with a gentle but firm hand. We bespeak for her abundant success in her chosen vocation. It was hoped she would return for the winter term; but wishing to graduate with her class at the Normal School, she could not be retained. Again the school was fortunate in securing the services of Miss. Myra Knowlton of Weare, a Normal graduate. The term is still in session, but she is doing fine and successful work, and we highly recommend her. The primary department has through the year, been under the teaching of Miss. Lizzie Peaslee, who works hard for the school and scholars, and has taught very successfully many terms of school. We wish her continued success. A few suggestions for the benefit and success of our schools here; and the town district have been forceably brought to the notice of your committee. The success, prosperity, and high standing, of what our schools ought and should be, is almost wholly acquired by the hearty cooperation of parents and teachers, in the work of the schools.

Pupils should be taught at home, that they go to school to acquire an education, to fit them for life's work, and to conform to rules and regulations of the school, just so far as as is possible. The honor roll shows who of the scholars have done the best. There should be cooperation between Com., both prudential and superintendent so as to ensure a better understanding of the duties of each committee,

and what can or ought to be done for the best welfare of the schools

If the town and village committee could meet and confer together occasionally on the needs success and uplifting, for higher standard of all our schools, it would be a help to all interested. Each member should be fully qualified to assume the duties expected of them, in concord, and meet together often to fully understand the necessity of working for best interest of the schools, and when such committees have been chosen and elected by the people; How much better it would be if the people would cordially support and sustain them in doing the work of the school year. School rooms here and over town are not sufficiently supplied with maps charts blackboards, especially portable ones and supplementary books. Other towns of the state are far ahead of Bradford in some of these things. The law which passed the General Court of our state last year, in regard to towns uniting and forming supervisory district, and hiring a superintendant for the same, is an important step in the right direction. State Superintendant Channing Folsom, at a Teachers Institute in Henniker spoke interestingly and plainly upon this subject; and hoped towns would take action upon it in town and school meetings this year. He is also ready to explain it to any one who will call upon him at his office in Concord. Education is the corner stone and firm foundation, of the world's progress. We all can agree upon that, therefore children should attend school regularly and be willing to conform to rules and regulations, beginning with Kindergarten through all other grades. Then there will be little to complain or find fault about upon either side. Mrs. Alice Rounsval of Newport is doing excellent work as a music teacher, and starting the pupils in the right direction to read music and giving foundation for a musical education to all who desire. She has very much needed some musical charts which we hope another year can be bought and placed in each room. Drawing has been introduced in the school this year and we feel confident the result will fully justify continuing the same. It is interesting also to know that patriotic instruction is taught in all our schools to some extent, and we wish our glorious flag might wave over all our school houses. Parents and friends should visit schools frequently and thus keep in touch with school work. The money has been carefully and judiciously expended

according to the needs of the schools and will return fourfold and abundant harvest to parents and pupils.
